The actual case of a Lebanon County

Blue Cross member

: .. Blue Cross took care of \$1500.00

This man had just begun to take life easy. Now in his early sixties, he had recently retired from a position he held for many years. Like many others, he was counting on his savings to make life comfortable for him and his wife in the years

Then it happened! . . . a double blow—two operations in two different hospitals, one right after the other! And each time it was major surgery-surgery which required prolonged hospitalization and the very best post-operative care. Ordinarily, this expensive siege of illness would have used up a substantial portion of his savings. But fortunately for him, he was still a Blue Cross member. After he left his place of employment, where he belonged to a Blue Cross group, he had continued on a "direct payment" basis.

Consequently, he received the most courteous and efficient service during his long stay in the two hospitals . . . and Blue Cross took care of \$1500 of his hospital bill!

It's possible that no one in your family will ever be in such a predicament, but it's a comfort to know that you can depend on Blue Cross to provide the protection you need when illness strikes.

Remember . . . once you join Blue Cross,

leave your group - regardless of age, occupation or the condition of your health. This is a very important feature of Blue Cross! "Take Blue Cross with you" and wherever you go you'll be sure of continued security against the cost of hospitalized illness or injury. Regardless of the complications of your case,

Blue Cross provides the CARE you need-with no dollar limitations on hospital services. And because Blue Cross is a non-profit, community plan, you have the added advantage of greatest benefits at lowest cost.

Write Blue Cross today for full details on group or non-group membership!

Half-ton beauty with a two-ton punch

THIS new '54 GMC light-duty I wasn't born just to win beauty Sure, its sleek lines, full-width grille

and panoramic windshield are handsomely un-trucklike.

There's the same dashing air about the inside, too. Two-tone color scheme. Harmonizing, supple-asleather upholstery. Smart instrument panel, with dials clustered for instant reading.

But mister - take another look! A burly, brawny brute of an engine

-a real truck engine-makes you think of a Miss America who also can bend horseshoes. 125 horsepower says that this beauty can heft a top load with ease and dash.

That's more power than some makers pack into their two-ton models. That's

more usable power than in any other 6-cylinder engine in its class! And its wide, deep box holds at least

8 cubic feet more than the roomy '53 model. That tail gate is graintight-and sand-tight. Finally, it offers Truck Hydra-Matio

Drive* that saves you, saves your cash, saves your time. (Note to the luxury-minded: there's a

DE LUXE model at extra cost, with chrome grille and trim, two-tone paint, curved rear corner windows-the works!) Come in and drive this great GMC.

It will do all its own selling!

*Truck Hydra-Matic Drive standard on some models, optional at extra cost on others.
